

Key features

- Strong magnetic hanger strap for Fluke 700G Pressure Gauges
- Hang with magnet or hook strap for non-magnetic surfaces
- Fast, easy installation using the 700G Gauge's protective holster
- Allows you to read pressure measurements hands free

Product overview: Fluke GAUGEPAK Magnetic Hanger Kit

The Fluke GAUGEPAK Magnetic Hanger Kit makes it easier than ever to take pressure measurements with a Fluke 700G Series Pressure Gauge. Designed to integrate seamlessly with the existing 700G Series protective holster, the GAGUEPAK is both easy-to-install, and easy-to-hang, freeing up your hands for pumping pressure, taking readings, and documenting test and calibration results. If you are looking to attach your pressure gauge to a metallic surface such as a nail, pipe, pump, or panel the strong rare-earth magnet will ensure that your gauge stays in place and is at the optimal viewing angle. When metallic surfaces aren't available, the included hook-and-loop strap allows you to conveniently hang your gauge on a pole or pipe.
